

“ Sending outbound paper mail was an absolute *time-suck* for our firm. We wasted so much valuable time printing, collating, folding and stuffing envelopes. **EDEX Mailing** gave us that time back - *and saved us money.* ”

- Ethan Pease, Partner
Visionary Law Group
Long Beach, CA

We Eliminated the Mailing Time-suck

Visionary Law Group uses **EDEX Mailing** to convert wasted mail production time into new firm revenue.

“ Our law firm realized daily outbound mail processing was incredibly tedious, time-consuming and expensive. Most of our mailed documents required service on multiple parties, so printing, collating, folding and stuffing envelopes on 10-page pleadings served to numerous recipients was a huge impact on our office productivity and overhead.

We needed a seamless solution we could easily integrate with our file management software and California workers' compensation EAMS filings. As a **Clio**™ user, we simply added **EDEX Mailing for Attorneys** from the Clio App Directory and our outbound mailing issues were immediately resolved.

The **EDEX Mailing** application integrates into our **Clio**™ **Manage** platform. When we draft new documents, we simply click to create an **EDEX Mailing** order from the **Clio**™ matter, choose the desired documents and parties, and the **EDEX** team completes our mailings the same day. They even generate their **signed Proof of Service form**, and add the mailing cost into the **Clio**™ matter for our accounting and billing records. Our staff now spends their time doing more productive work, and the convenience and cost savings make **EDEX Mailing** a true no-brainer for every lawfirm!

Merriam-Webster
Dictionary

Time-suck

[noun]

An activity to which one devotes a lot of time that might be better or more productively spent doing other things.
